Ramasamy Thiruselvam

Principal Engineer & Solutions Architect

: +91 9789772767

: rams_07@ymail.com

Professional Summary

- Having **15+** years of IT experience in AI driven Automation test systems design, Automation test development and Quality Engineering testing (QA).
- Ideated & developing an **AI virtual co-worker agent** for completely converting the regression automation handoff workflow to be picked up by AI agents completely.
- Ideated & developed a scalable **automated content validation framework** for production applications to avoid data leak.
- Hands-on experience in Global Delivery Model. Handled onsite-offshore projects for reputed clients **VISA Europe Services Inc., Citicorp Credit Services Inc.** & **Direct Line Group plc** in both onsite & offshore locations.
- Experience in implementing and maintaining **Cucumber-Java** Frameworks for **BDD** and other Hybrid frameworks such as **CRAFT** framework in Selenium-Java & also Keyword Driven, Data Driven, Modular Driven and Hybrid frameworks using Micro focus **UFT** tool.
- **Products automation** : Developed automation frameworks & regression test suites for banking & financial products such as Oracle's **Flex cube** v9.0, Finastra's **TI Plus** v2.8 & Guidewire's **Claim Centre** v9.0
- **Mainframe automation**: Worked on automating mainframe systems by using IBM PCOMM & Core Java
- Developed **AI chat bots** using **Python** & Chatterbox to overcome the problem of redundant data creation.
- Developed framework for automating middleware that communicates via **MQ protocol** (IBM Message Queues) and also developed a front end for triggering the execution using **JSP/Servlets**.
- **Big data automation**: Developed components for interacting with datasets in **Apache HBase** (built on top of **Hadoop**)
- Was part of automation Centre of Excellence (CoE) team and resolved technical issues for at least **25+ projects** across Cognizant
- Implemented **service virtualization** for HTTP based services with zero tool license cost using **Wire mock** & UI automation for desktop applications with zero license cost using **Winium**
- Implemented & worked on **Dev T' Ops** model using the tool sets **Maven**, **Github**, **Jenkins** & Cucumber-Java framework.

Technical Skills

Automation tools	Playwright MCP, Selenium Web driver, HP Unified Functional Testing, Winium, Auto IT, Wire mock , SOAP UI, Karate, Postman
AI Tools	Copilot, Notebook LLM and Gemini
Languages	Java, Groovy, VB, .NET, Python, PL/SQL, Shell scripting, HTML, XML
Database	Oracle, DB2, MS SQL Server, Apache HBase
Test Management Tools	JIRA with X-ray, Microfocus ALM, Rational Clear Quest, Bugzilla
Version Control	Gitlab, GitHub, Tortoise SVN
Development Methodologies	Agile, Behaviour Driven Development (BDD), Waterfall
Frameworks	BDD-Cucumber-Java, CRAFT ,Data-driven, Serenity & other Hybrid Frameworks

BFS Products	Oracle's Flex cube v9.0, Finastra's TI Plus v2.8 & Guidewire's Claim Centre, Policy Centre
APIs	XMLunit, JSON, Java Messaging Service(JMS), IBM WebSphere MQ, Apache POI, Extent Reports, Serenity Reports, Fillo, jDOM, Log4j, OpenCSV, PDFUtil, PDFBox, JSONPath

Award Details

Title	Category	Received On
HacktheBox	Hackathon event	30/10/2025
Value-a-thon – 1st Position	Ideathon event	06/05/2025
Hackthebox – 2nd Runner up	Hackathon event	04/10/2023
Spotlight for Innovation	Innovation Award	25/06/2021
Beyond the Boundaries – Silver Medal	Innovation Award	05/12/2019
Pillar of the Month	Awards for Excellence	14/09/2017
Best Team Award	Awards for Excellence	05/07/2016
Service & Commitment Award	Service Awards	26/08/2015
Path Finder Award	Awards for Excellence	13/11/2014
Service & Commitment Award	Service Awards	26/08/2013
On The Spot Award	Awards for Excellence	20/10/2011

Experience Details (as of February 2026)

Verizon Experience	5 YEARS & 3 MONTHS
Cognizant Experience	4 YEARS & 1 MONTHS
TCS Experience	6 YEARS & 2 MONTHS
Total Experience	**15 YEARS & 6 MONTHS**

Project Experience Summary

Project#6	Verizon Data Services India Pvt Ltd
Role(s)	Automation Test Architect
Work Location(s)	Chennai, India
Duration	From November 2020 – **Present**
Responsibilities	➢ AI first mindset from the planning phase to design high quality production ready scripts/code. ➢ Work with Agile core teams to do the LLD, review designs and implementation logic ➢ Perform code reviews, fix issues and measure the stability/efficiency ➢ Work with the team on challenges, design solutions to overcome the issues ➢ Provide training sessions to the team and plan strategies for AI Adoption by the team ➢ Maintain a strong understanding of industry trends and best practices, including emerging ones such as AI driven SDLC and align team for organisation's vision.

Project#5	Direct Line Group Plc (UK)
Role(s)	Automation Test Architect
Work Location(s)	Chennai, India
Duration	From Sep 2018 – November 2020
Responsibilities	➢ Implement right-fit test automation approach. ➢ Consult on Agile testing and test automation (accelerators, tools and partner's products) ➢ Work closely with business in identifying solution requirements and key case-studies/scenarios for the future solution ➢ Lead implementation of the test plan/strategy from establishing project requirements and goals to solution "go-live"/steady stage/CoE ➢ Build automation frameworks for API automation using core Java ➢ Maintain a strong understanding of industry trends and best practices, including emerging ones such as big data, continuous integration and cloud technologies. ➢ Act as a career coach or/and advisor for future leadership subordinates

Project#4	Prodmate
Role(s)	Automation Test Lead
Work Location(s)	Chennai, India
Duration	From Nov 2017 – Sep 2018
Responsibilities	➢ Automation scripts review, Update for Prod Mate application using **core Java**, **Selenium** & **.NET**. ➢ Direct communications with potential customers, RFP processing, development of proposals for implementation and design of the solution ➢ Presentation of the proposed solution to a customer, participation in meetings with customer representatives ➢ Worked on **CRAFT framework** for Selenium

Project#3	Citigroup Inc. (USA)
Role(s)	Automation Test Lead
Work Location(s)	Chennai, India
Duration	From Nov 2016 – Nov 2017

Responsibilities	➢ Automation framework development for core banking application and other partner applications using Java, Selenium & UFT. ➢ Team management activities, Metrics maintenance ➢ Majority of automation solutions were developed using core Java & Selenium ➢ Created Behaviour Driven Development (**BDD- Cucumber**) framework, Developed application in Core-Java for message posting using **JMS API** ➢ Created **Web Services Test Accelerator** for testing Web services and also developed a User Interface for the same using JSP, Servlets ➢ Created Scripts for communicating the **test results to JIRA** and retrieve information from JIRA using **REST** call

Project#2	VISA Europe Services Inc. (UK)
Role(s)	Regression Tester; Regression Test Lead
Work Location(s)	Reading, United Kingdom & Chennai, India
Duration	From May 2014 – October 2016
Responsibilities	➢ Analyzed system requirements specifications, developed Test Strategy, Test plans, Test Cases, Test Data for manual testing of the functionality, GUI, Compatibility, usability and User Acceptance of the application. ➢ Implemented industry best practices (Benchmarking) and quality factors during Test Automation scripts creation ➢ Designed and implemented hybrid test automation framework using QTP ➢ Trained the team on how to use the developed framework, quality standards, implement the change management system in the automation suites and prepare the user friendly documentation for the scripts ➢ Developed reusable Generic and Application functions using VB script. These functional can be used anywhere in the test scripts.

Project #1	Citicorp Credit Services Inc. (USA)
Role(s)	UAT Tester; Test Analysis & Planning Lead
Work Location(s)	Guadalajara, Mexico & Chennai, India
Duration	From August 2010 till April 2014

Responsibilities	➢ Skilled in analyzing business context and requirements for UAT testing purposes ➢ Performed end-to-end functional testing, System, Functional, Database Integrity, Sanity testing and User Acceptance (UAT). ➢ Responsible for driving E2E Test scenarios efforts and in identifying test data for UAT ➢ Extensively used Quality Center for Manual test execution, Result analysis and Defect reporting ➢ Involved in requirement analysis, designing test plan, Effort planning, identifying test conditions, designing test cases, reviewing test cases and executing test cases

Certifications

Title	Type	Acquired On
Introduction to Model Context Protocol from Anthropic	External	Feb 2026
Leading self & Teams – Indian School of Business	External	Jan 2024
Tricentis TOSCA – Automation Web Applications	External	Nov 2023
TOSCA Automation Specialist AS1	External	May 2020
HP Accredited Technical Professional- Unified Functional Testing (HP0-M102)	External	13/06/2016
Lean Six Sigma Green Belt	External	16/03/2011
ISTQB-BCS Certified Tester Foundation Level Certification	External	02/09/2013
TCS Business Domain Academy: Certificate in US Mortgages	Internal	16/11/2011
Cognizant Academy: QE Technical track Selenium certification	Internal	15/06/2017
Cognizant Academy: QE Technical track Core Java, JUnit certification	Internal	25/10/2018
Cognizant Academy: QE Technical track Finesse certification	Internal	03/10/2019
Cognizant Academy: QE Technical track Cucumber certification	Internal	18/09/2019
TCS Business Domain Academy: Certificate in US Banking	Internal	13/06/2011
Technical Documentation and Effective Technical Writing	Internal	25/06/2015
TCS Business Domain Academy: Certificate in Payment Systems Concepts	Internal	07/03/2016
TCS Business Domain Academy: Certificate in Clearing and Settlement Services	Internal	08/03/2016
Testing Concepts Light - E0 WBT-based Program (TCS Internal Curriculum)	Internal	25/06/2015
Test Automation Tools - Basics (TCS Internal Curriculum)	Internal	27/02/2016

Education Summary

Institute	Qualification	Subject	Percentage/Grade
Vellore Institute of Technology	Bachelor Of Technology	Information Technology	9.02
